

La veille scientifique a pour objectif de présenter de façon synthétique les résultats de travaux scientifiques récemment publiés ou en passe de l'être concernant la vidéoformation.

Documents de référence

- [Etat de l'art de Cyrille Gaudin et Simon Flandin](#) intitulé "la vidéoformation dans tous ses états". Ecrit réalisé dans le cadre de la seconde conférence de consensus de la Chaire UNESCO "Former les enseignants au XXI^e siècle".
- Lors de la précédente rencontre Simon Flandin a présenté à l'auditoire son travail de recherche. Son étude a permis de mettre en lumière le rôle que joue le sentiment d'insatisfaction dans le processus de changement engagé par les enseignants.
